# IEEE ComSoc Student Competition

**IEEE ComSoc Student Competition**, for graduate and undergraduate students, launched by ComSoc in 2013.

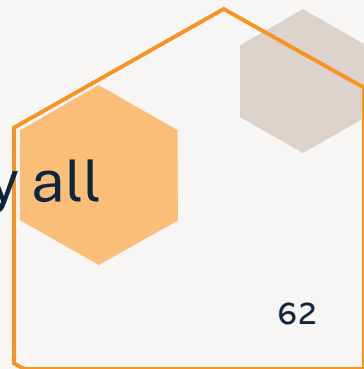

The Competition rules and details, including the winners of the previous editions, are presented at: <http://www.comsoc.org/communications-technology-changing-world>

The theme of the competition is again "*Communications Technology Changing the World*".

Since its first edition in 2013, I and Nelson have been the Chairs of the Student Competition Committee, which will select the winners.

I am now confirming the Committee members of the last edition, but also seeking new ones to refresh the Committee composition.

We wish to have **one representative nominated by each TC**, to cover not only all geographical areas but also all technical subjects.
